

# Composition of the atmosphere

 Nitrogen: 78,08%  
 Oxygen: 20,94%  
 Argon: 0,93%

 CO2 Total: 0,04%  
 CO2 Natural: 0,0384%  
 CO2 Human: 0,0016%

The green square at the top right is the total CO2 contained in the Earth's atmosphere which is 0.04% of the total. 0.0384% is natural CO2, and 0.0016% is that produced by human activities (white square). All of Europe contributes 16% of that little white

All of Europe contributes 10% of that little white quadrant, or 0.000256% of the total.
